	Location Information		System-	Owned Portion		Cı	stomer-Owned Portion		
Unique Service Line ID	Location Ider Street Address	ntifier Other Location Identifier	System-Owned Portion Service Line Material Classification	if Non-Lead in Column G, Was Material Ever Previously Lead?	Service Line Installation Date	Customer-Owned Portion Service Line Material Classification	Basis of Material Classification	Notes	Entire Service Line Material Classification
A Unique ID is recommended for each service line.	Water systems must track addresse internal inventory. For the publicly a identifiers are required for lead a replacement. If the system does in location identifier, other options coul landmark, intersection, block, or oth line location	s of all service lines in their ccessible version, location nd galvanized requiring ot use addresses for their d include GPS coordinates, er details to specify service	Dropdown list includes recommended subclassifications. If "Non-Lead Other", describe in Notes field	Select Yes, No, or Don't know. Important for determining if downstream/ customer- owned galvanized service line requires replacement	Date, year, or estimated date range when the service line was installed or replaced	Dropdown list includes recommended subclassifications. If non-lead other, describe in Notes field.	Select option from drop down list. If "Other," describe in the Notes field	Can use this field for documenting additional relevant information, including when classification changes.	Dropdown list includes four required service line classifications of Lead, Non-lead, Galvanized Requiring Replacement, or Unknown
